

COSTRUISCI IL GIARDINO DI PASQUA

1. Guarda le indicazioni a pagina 60: fotocopìa e taglia le scene, i personaggi e le piccole basi di sostegno, seguendo la linea continua di contorno;
2. dopo aver tagliato, piega lungo la linea tratteggiata;
3. spalma la colla stick sulle piccole basi dove troverai il cerchietto grigio;
4. quindi fai aderire la parte con la colla sul bordo inferiore della sagoma e sulla parte verticale.

Avrai così ottenuto sagomine autoreggenti per ricostruire tutto quello che Gesù ha vissuto, dalla sua entrata a Gerusalemme fino alla morte e risurrezione.

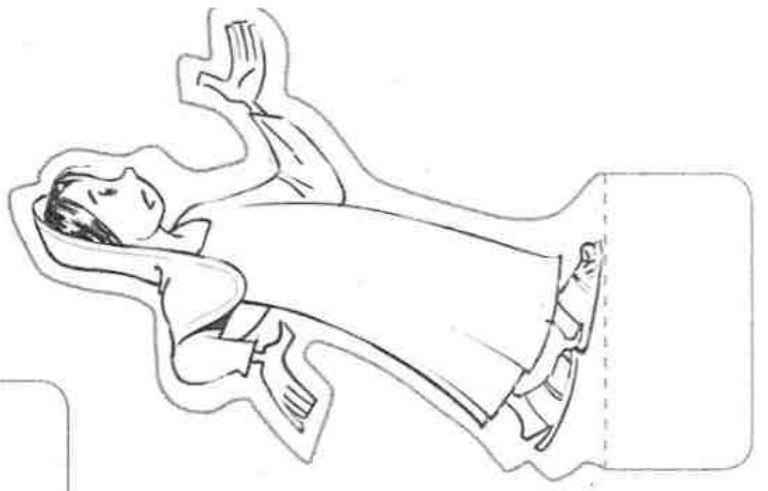

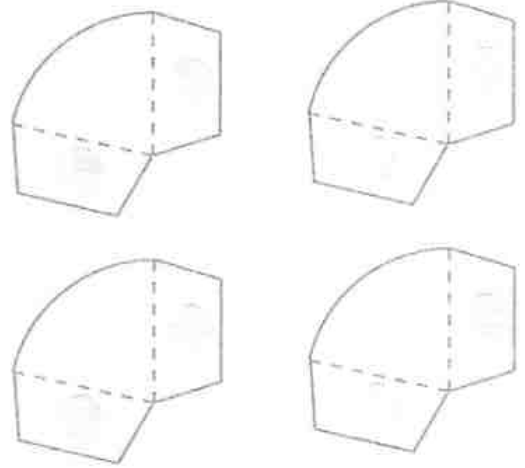

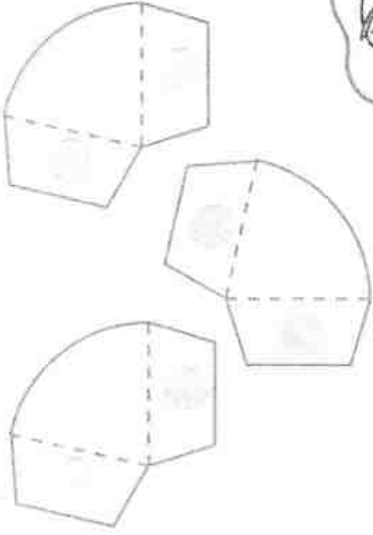

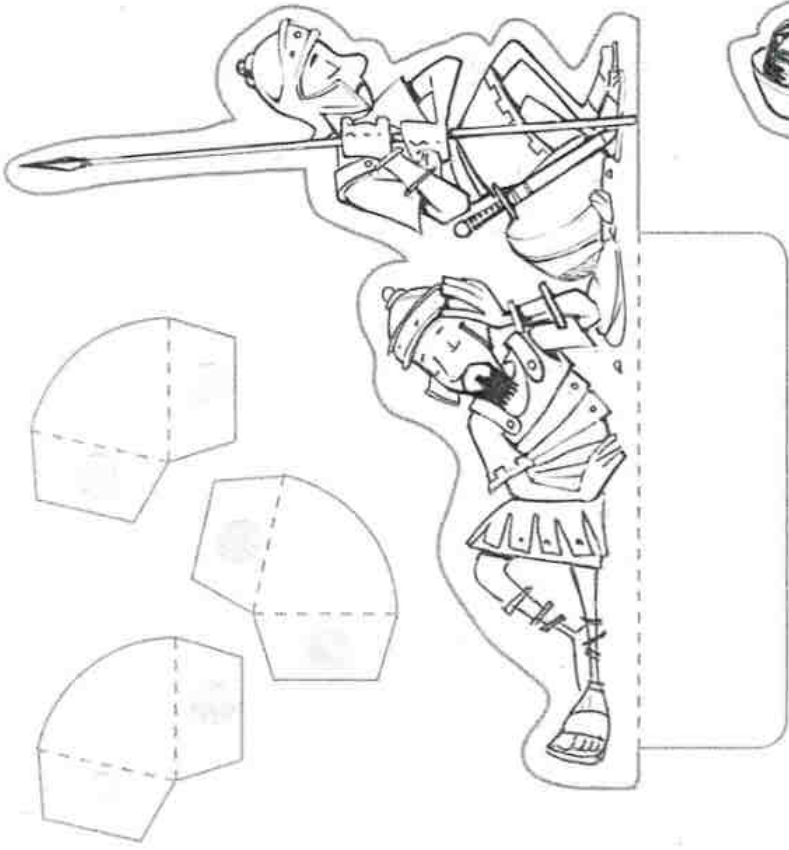

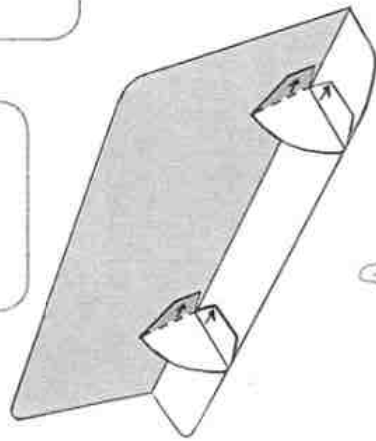

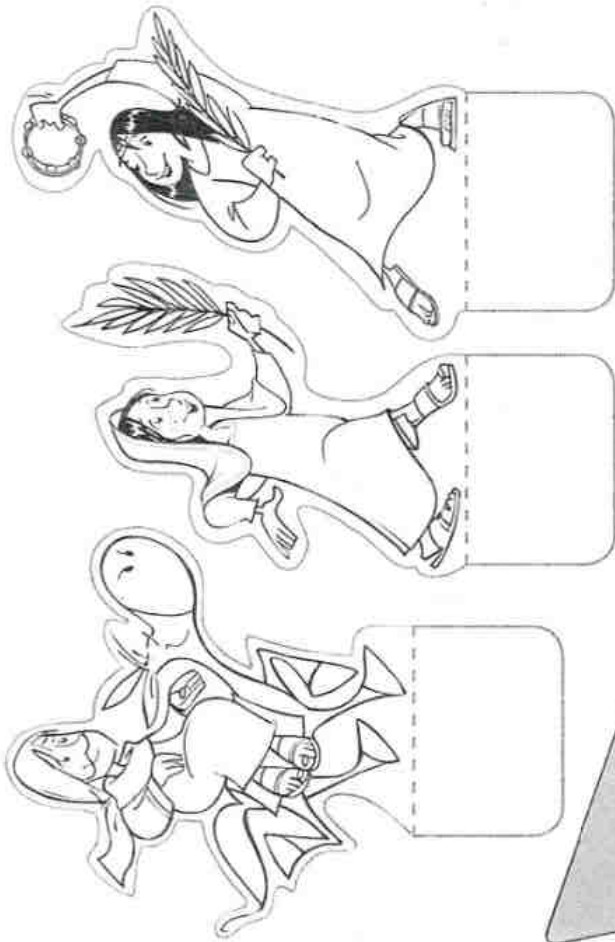

La costruzione del giardino di Pasqua si potrebbe iniziare il sabato precedente la domenica delle Palme, con la prima scena - l'entrata a Gerusalemme - e costruire una scena al giorno, fino al sabato santo.

A quel punto, saremo tutti pronti per celebrare la Pasqua e cantare: «Alleluia, Gesù è veramente risorto!».

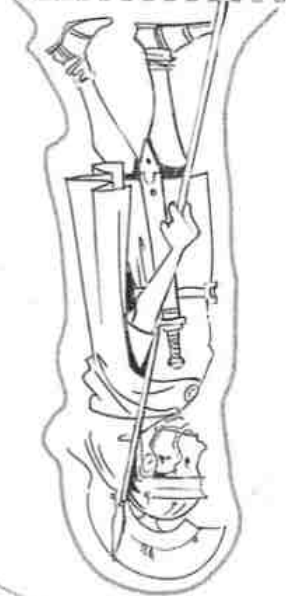

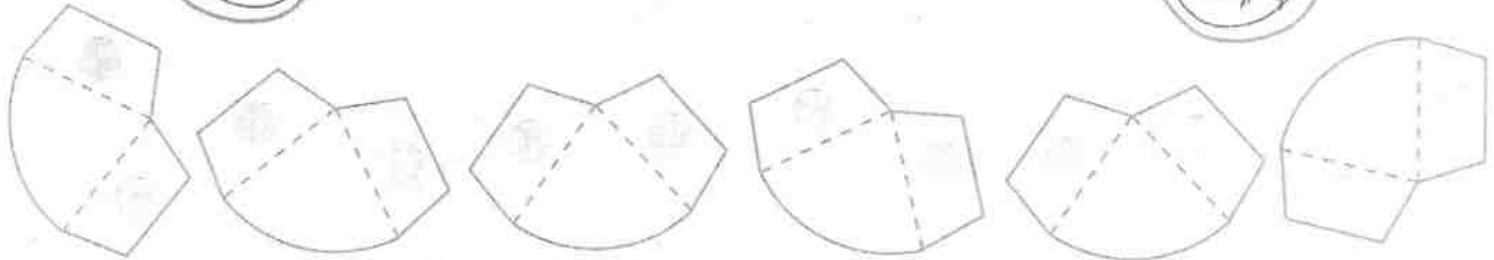

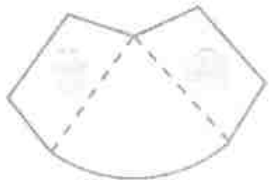

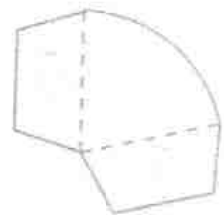

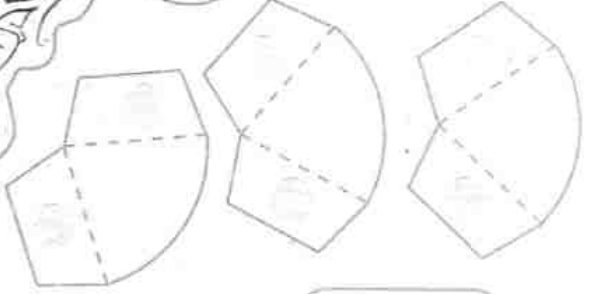

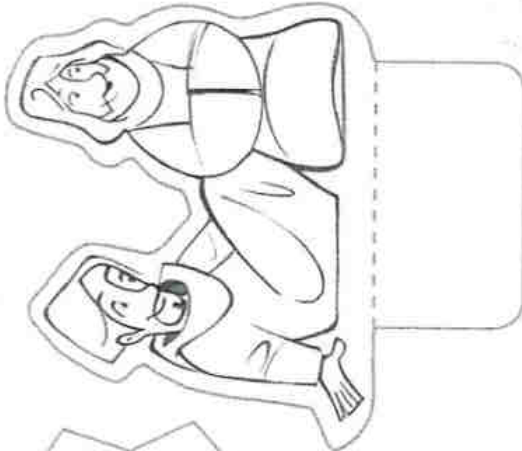

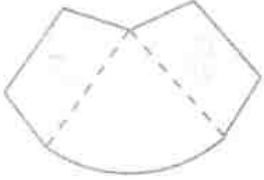

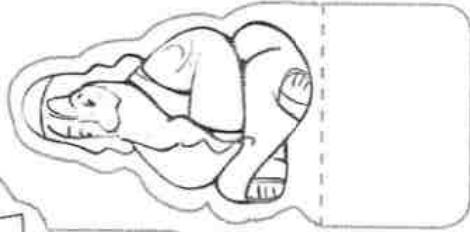

Buon lavoro!

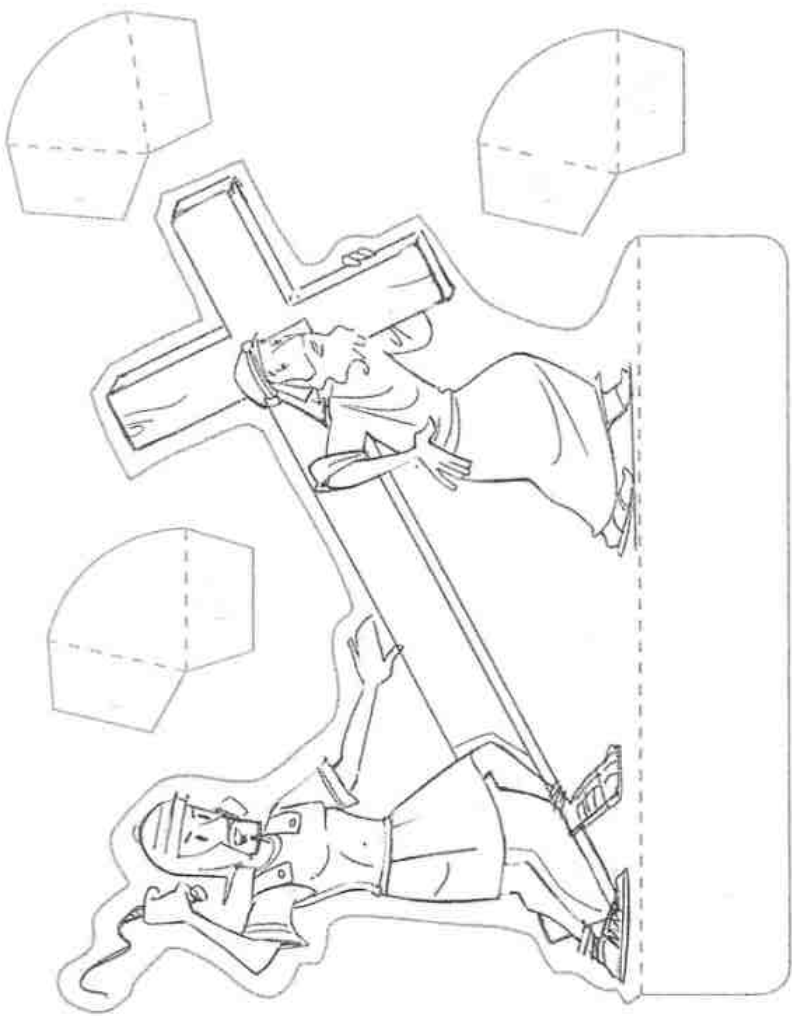

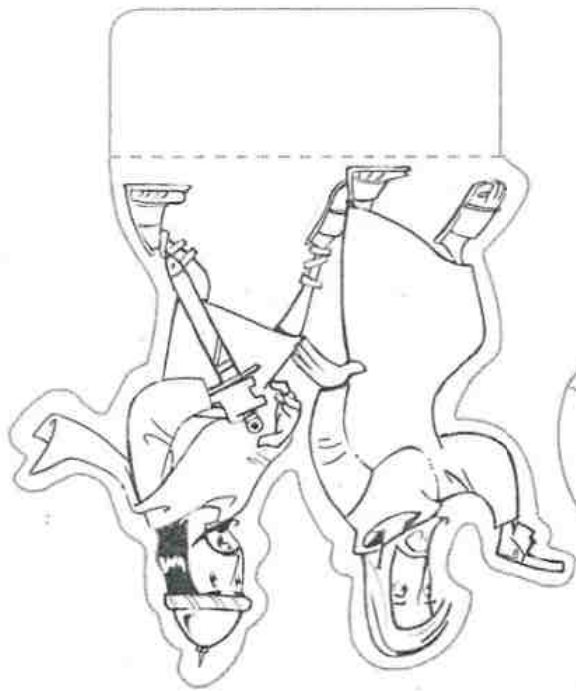

GESÙ A GERUSALEMME
